Four Carved Decorative Mirrors made from C19th Screen

SHANXI PROVINCE, C19TH

DIMENSIONS: W:54 D:5.5 H:95 (cm)

REFERENCE: SC229

£1,950 SET OF FOUR

These mirrors are made from the top panels of screens elegantly decorated with graduated mouldings and carved floral motifs symbolising happiness and prosperity.

The hanging of one or a pair or more of these beautiful mirrors provides a wonderfully striking accent to contemporary interiors.

The adaptation to a mirror is possible because of the carved decorative voids within the inner frame which would originally have been covered with rice paper. The frames themselves feature carved fortuitous flowers, elegant and elaborate in execution without being effusive.

When found in China, these had faded green, yellow and blue paint that was removed during restoration to reveal the wonderful honey hue of the original wood.
