£375 PAIR

This pair has great sculptural presence with its angular ends. The yokeback, the most vertical of Chinese chairs, has a curved and ergonomically correct back splat ensuring posture is maintained, with feet off the floor and resting on the front runner.

The distinguishing features are the angular ends of the arms and crest rail, reflecting the artistic flair of the craftsman.

The classic square base is offset by the beautifully tactile curvilinear shapes in the crest rail and sinuous arms, which serve as a comfortable armrest while the ends reach outwards to welcome the sitter. The lacquer has been restored.
